Subject: Engineering Contract on Rte 1

Dear Dan,

I understand there was discussion at your Tuesday Town Council meeting about the County administering the engineering contract for the preliminary design of the widening of Rte 1 through the Town of Dumfries. We had agreed to do this at the request of VDOT because of the County Transportation Office's exemplary track record of bringing transportation projects in on time and on budget. At your Town Council meeting on Tuesday, members of your Council made it very clear they are not interested in the County administering this project and the Council has directed you to find an alternative to administer the project that is not the County. Due to the discussions at your Council meeting and their direction to you to seek an alternative, I have directed the Transportation Department to notify VDOT that we will not be administering this contract. VDOT understands our position on this; we believe this is in the best interest of all parties. Thank you.

Melissa
